

## Supply List - Patti Flower for Innovative Applique

**Pattern:** Patti Flower from Plant Your Own Garden by Rebecca L Campbell

**Option 1:** Plant Your own Garden a pattern of 12 applique flowers, quilt construction and Innovative Applique directions. This pattern will be available for purchase during class.

**Option 2:** Visit <http://www.sewforever.com> or Craftsy.com and buy the PDF for Patti Flower for \$5.00.

**Please prewash fabrics...**

**Background material:** approximately 16" x 18" piece of fabric

**Flower material:** 7 colors for flower, parts, only need to be 3" x 5", 1-3 colors for leaves, pieces need to be 7" x 6". Those measurements are just to give you an idea of how much fabric you will need. Pull some fabrics in colors you like and we will make them work.

**Thread:** colors that match the fabric you are using for the flower and leaves.

**Batting:** 8" x 11" piece of low loft dense batting. This will be used for the trapunto without stuffing.

**Roxanne's Glue Baste-It:** Please purchase this specific brand in the accordion shape bottle because it is easier to apply and does not clog up. Don't stress about finding it. I will have a supply you can purchase during class.

**Clover seam ripper:** the one with the fat white handle, or a turning tool of your choice.

**Needle of your choice:** Quilting Between size 12 works well for me. Feel free to use what you are comfortable with.

**Thimble of your choice:** Thimblepad Leather works great, little round leather dots that stick on your finger.

**Rotary Cutting mat:** 6: x 8" is perfect, or the smallest cutting mat you have.

**Kit fee of \$5.00 covers the following items which will be provided in class:**

The pattern copied to a C Jenkins freezer paper sheet which will be used for the templates.

The pattern copied to Perfect Piecing by June Tailor which will be used as a placement guide.

The pattern copied to Print-n-Fuse which will be used to create the trapunto.
